MIDLAND WIND AND WATERMILLS GROUP

THE MIDLAND WIND AND WATERMILLS GROUP  
(affiliated to the Society for the Protection  
of Ancient Buildings)

This book is published by the Midland Wind and Watermills Group, which is concerned with the study of the history and technology of mills, and, in principle, with their preservation and restoration. Its area is the region loosely defined as the Midlands, especially the central counties of Staffordshire, Worcestershire and Warwickshire.

The Group, which functions as an autonomous society, holds monthly indoor meetings, with talks and discussions, during the winter, and arranges several tours to mills during the spring and summer. Members periodically receive a Newsletter and can purchase other publications at preferential prices.

For further particulars, please contact the  
Hon. Secretary.
